1) Riverbank flood control

2) Hybrids between 2 cell cultures
spun together

3) Maturity meter based on
ethylene production, respiration rate etc
for fruits: tell us
"Ready to eat in
2 days
4 days etc"
(or better still
a "maturity index"
which varies
colour)

4) Clone or other
simple of
avocados —
nurseryman (Avoni)
nurseries, Mackinnon

Also other
tropical fruit in
"fruit bowls"
(1/fruit with indicator)

5) Tender system for airline tickets —
"I'll go to Europe for $50 anytime
at 2 hours notice"

6) Dance-looking areas or land
(eg Kauri) are always near lights,
if dance due to potatoes, maybe
more efficient use of land — exploitable?
