

IDEAS 01-8-10: Use balloon observe platforms for traffic control, police observation etc

01-8-10: "Irrigation collars" with flat opaque section to deter weeds, water capacity for dew recovery, seepage band instead of drippers.

01-8-11: Smaller sheep for higher wool/weight ratios Website: World Wide 01-8-24. WACBOR

01-8-27: Do Neanthy that gases survive especially in Bolognes?

01-8-28: Remote machine control to replace fly-in, fly-out of miners?

IDEAS 01-7-20: Are synthetic aquifer irrigation, use ceramic vessels etc as distribution medium? water \rightarrow plastic \rightarrow ceramic.

Note: Determine if fertilizer salts do pass through containers (likely, cf salt intolerance on trees)

01-7-20: Colloidal silver adsorbs oxygen atoms (not molecules) and these act in water purification. What other uses, & how would they work? Would $RbAgI_3$ (solid state ionic electrolyte) work too? (high mobile electron level causes O_2 molecule split??) 01-7-22: Sodium silicate + fibre gellet set in building blocks etc?

01-7-24: Better freeway / cutb cutting carts direct from live core etc etc?

IDEAS 01-7-19: Tree shelters: Concept: Stacked toruses (square)

cross section) to contain water, apron with slots to allow wind through, interconnect tubes between toruses with rubber grommet to allow water inter-dig. Funnel connector on top of stack to collect rainfall. Extra reservoir at base for excess rainfall, irrigation water.

IDEAS 01-7-2: Determine oil content of olives with eg ultrasonic or direct-reading probe?

01-7-6: Artificial climates with combination of useful purposes by deep mixing of all cultures?

01-7-7: Online will kit & other door, plus storage offered

01-7-8: Vacuum balloon wind generator (batteries? in jet stream?)

01-7-9: 'Vapour air curtain' - solar ated upward air wall - to induce rainfall? (effect on humidity?)

01-7-9: 'Glove' based on low melting point glass with high microwave absorption component?

01-7-10: Scaled welder for Idarband?

01-7-16: Olive leaf extract for in vitro, ~~cutting~~ propagation?

01-7-14: TERRACE HORTIC- for terrace edge?

SUBSURFACE IRRIGATION

UNDERGROUND WATER STORAGE WITHIN SAND BEDS?

1) Cut slots in plastic pipe with cutting wheel etc.

2) Cover with root-control cloth or Rondeby containers?

Combine terrace

IDEAS 01-6-27: or Chem@com: Rubidium silver iodide ($RbAg_4I_5$) is... unlike most salts... a highly conducting solid... the capacity to conduct electricity like some electrolyte solutions." Uzer?

01-7-2: If chemotherapy hair loss is fully recovered by the body, can the recovery mechanism be stimulated to reverse baldness? 01-7-2: Humicones

If these eventually peter out naturally, can the petering-out process be enhanced?

01-7-2: Olive pricing: Shade-cloth "conveyor belts" under each row, gentle shade once/day, auto collection in bins/fluid channel (once off at end of each row. 01-7-2: shade a whole row slowly with cable collars round each tree?

01-7-2: Olive pip (flesh separation by liquid air hardness, and tumbling flesh off?)

Control perimeter wires

Robot

Water pumps

plastic/rubber raised beds

ceiling

Sack borders

RUGBY PUMP SUPERCONDUCTOR

RbAg4I5

Fly in robot (bore hole plastic)

Water block built with or jacks (1")

IDEAS 01-1-18: Phoenix reclaims - vigorous muckers - use as p. drosophila roostback?

01-3-3: Multiplex optical fibre picture display so each pixel only refreshes every 1/50 sec, complete pic along 1 fibre?

01-3-9: Space rings a la A.C. Clarke's 'Round of Paradise' but rotating within magnet rings linked to space tower at LEO distances. Cable part-supported by vacuum balloons to ca. 40 km? 01-4-26: Use fruit fly injection substance to make fruits/nuts fall early?
