

IDEAS | 97-5-24!
 Water-filler
 silver wine cork under
 trees for light reflector, mulch,
 water condensation etc.

97-5-26: Is the Earth's inner
 ('solid') core rotating at quite
 a different rate to surface, due
 to tidal effects? Also, could
 the outer core ('liquid', actually
 perhaps a type of degenerate
 matter) suffer v. rapid field changes
 in pole reversal?

97-5-27:
 Have desert growth trees been done
 down deep mines, basalt, to
 check if gravity decreases?

97-5-28: (NEXT WEEK): does Earth
 dynamic effect cause much heating?

97-6-9: Earthquakes occur along roads
 with large big scale slope/levelation
 changes or derivatives of these slopes?

IDEAS | 96-12-23: Apply ARI etc
 that optical meritism?

97-1-12: Boiling water on
 leads forces bubbles out (not hence
 water sucked in?) - Get similar effect
 by applying vacuum, then basic vacuum
 while seeds under water (GFA?)

97-2-26: Use dimethyl sulphoxide
 (or penetrant) with rooting compounds
 to reach inner potential root initiation?

97-5-2: Gas \rightarrow electricity conversion
 (local, domestic) via new type of
 fuel cell (not possible).

97-5-7: Pack bag-life milk
 in wine corks for longer life
 after opening

97-5-14: Pinhole
 camera/CCD detector all on a chip?

97-5-19: (with color exposure)
 electrochromic, etc.
 Tray with
 tray with water, heat, etc.

IDEAS | 96-4-23: Olive
 processing - liquid air
 freezing + crumble, sieve out seeds?

96-5-8: Ship factories to
 provide early portable infrastructure

96-6-21: Test oil intake or bleed
 in pototonic-bag germination?

96-6-25: Fungicide by releasing
 pre-sterilizing agent (gas to release O₂)
 activated by microwave irradiation to
 effect actual release

96-7-5:
 If soil bacteria can initiate pototonic
 root formation, can they also aid
 rooting on cuttings?

96-7-29:
 'linear' telephone exchanges - cabled
 along major roads, 'mobile' links
 every 5 km all feeding to a rule
 exchange.

96-8-26: For deaf
 people: learn to read
 graphical representations (with
 clear, bold, etc.)?

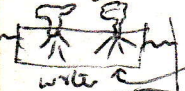

IDEAS | 96-1-18: Roundly float
 production rafts on
 dams, reservoirs etc to reduce
 evaporation? 96-1-25: As above,
 but have controlled use of water by
 trees eg with micro-holes to water?

96-2-6: 'Tree Cans' issued in series
 like basketball cigarette cans, with color
 illustration, culture details etc. Also attached
 as tree labels in drink-wrap or sealed
 plastic packets.

96-2-28: Use
 the inflated color area
 to generate photo-
 electricity rather than
 work?

96-3-31: Combine mass spectral analysis
 & electron-beam technology to build
 materials atom by atom

96-4-10: Down CO₂ emission - bait for
 crops

96-11-30: 'Fluid Flywheel' for vehicle power source/renew
 Can 'M' for petrol-car etc: boost before journey)

96-11-22: Teleoptic hand-
 held viewer (alternative:
 prone?) for peasant etc?

96-11-29:
 Remote power with 'clamp'
 to face onto branch small
 cutter (electric?)

96-11-29:
 Trial static
 productivity on ridged v. flat land?
 95-12-1

95-12-1: Deep water bore: even
 deep bore (> 1km) should have large
 vibration component, so pumping should
 need to be only part way (if bore
 hole/worked to inflow goes over
 'adventured' equiferous range.

96-1-11: Turn-out culture mango
 for somewhat variation

96-1-11:
 'TREE CARD' - make colourful label
 code in credit-card size as collector's
 items out to use (shrink-wrap) as
 tree labels or info. sources

straw/air steel 'in a tube', circular
 cross section, filled with liquid
 spin at high rate for high
 energy storage

96-11-22: Teleoptic hand-
 held viewer (alternative:
 prone?) for peasant etc?

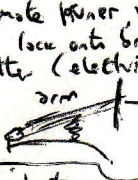

96-11-29:
 Remote power with 'clamp'
 to face onto branch small
 cutter (electric?)

96-11-29:
 Trial static
 productivity on ridged v. flat land?
 95-12-1

95-12-1: Deep water bore: even
 deep bore (> 1km) should have large
 vibration component, so pumping should
 need to be only part way (if bore
 hole/worked to inflow goes over
 'adventured' equiferous range.

96-1-11: Turn-out culture mango
 for somewhat variation

96-1-11:
 'TREE CARD' - make colourful label
 code in credit-card size as collector's
 items out to use (shrink-wrap) as
 tree labels or info. sources

IDEAS | 95-10-3: 'Heavy oil' to
 books, replace missing
 frequencies when pototonic-spectrum
 loss/Also: when some audio nerves still
 functioning, access direct to brain ear?

95-10-20: 'Probiow' waste rich
 on legs, push under 2 trails base
 to remove

95-10-24: Reduce wildfire
 risk (due to litter accumulation of 1-2 t/ha,
 reaches after 5-6 yrs) by increasing fungal
 regrowth rate?

95-11-1: If milk
 inhibits puberty, extract &
 synthesize components of human
 milk & feed to early-maturing
 smaller children?

95-11-3: Bag Fruit with material
 containing phytochemicals to promote fruit
 sizing, colour, etc? (Also part
 resistance - maybe why extracts from
 resistant varieties)

95-11-16: Entry
 Does entry (= entrance) actually increase
 with time? Phenomena such as gravity waves
 in atmosphere (moving pattern out of void) etc
 as part of this. (See Ray down 95-10-16)

IDEAS | 95-6-30: 'Space Zivoli'
 polyurethane spray for
 road grafts, masts?

95-7-6:
 Roots cutting in bonans leaf stem growth?

1995-7-24: Possible point-fish
 or white bitumen/sevin for 'dot
 matrix' printer for braille street
 names on bitumen surface

95-8-8: Hydrogen peroxide for
 seed sterilization (& germination
 enhancement?) - or baby gear sterilizer
 (Milton?)

95-8-16: Grow fruit trees tall
 tip over for easy harvesting?

95-8-30: Vertical Lewis saw to
 build round tree, ring bark, debris
 debris, cut-out billets, saw
 etc - maybe also low cable
 comp-wire or movable brackets

95-9-25: Plastic bag
 over leafy tree will gather transpired
 water
