

124

**IDEAS** | 93-2-22: Newspaper soaked in copper sulphate (+ PVC paint?) as drier against soil?

93-2-22: Alternative electric power transmission method with no heat?

93-2-25: Shrink-wrap individual mayes to avoid sap burn?

93-3-8: Culture body parts producing hormones etc for re-implantation rather than drug doses?

93-3-10: Mixed diploid/tetraploid pollen for double fertilization of angiosperm shorts?

93-3-26: Produce dwarfed, early-bearing pecans by grafts on hickory rootstock?

93-4-5: Female brinats?

93-4-7: Fresh water in aquifer below salt lakes?

93-4-8: Battle/war control of fruit fiber in pollen fruit?

**IDEAS** | 93-1-15: Solar powered 'forlone' mulcher, continually chewing & skittins? | 93-1-22: Commercial collection of pollen with hand (battery-driven?) vacuum cleaner?

Silt diversion channel: at bottom of dams, with long, slow perforated-screw pumps to take out silt & divert into settling pans from under walk.

93-2-4: Put bird netting on heavy inflated hoops? Or greenhouse with crowbars?

93-2-8: Is today's speed of light in vacuum set by the current mass sun, & density, & distribution in the Universe? If so, can it be achieved by adding big negative density patches?

**IDEAS** | 92-12-8: Plant protection

4 plastic pipes, 3 copper

Wind ducts or plastic sleeve over

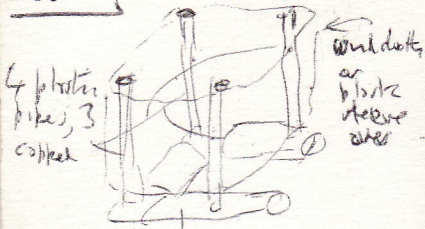

large diameter pipes or special mould tank.

[+ funnel collector or screen guide on top]

92-12-7: Powered finger-thumb sensors for rapid pruning (one for each hand)? (tending to wolds?)

93-1-14: 'squeeze bomb' irrigation above trees to provide foliar feeding - one or two pulses only/night at high pressure.

Grow fruits on big polyethylene from rafters, circulate rafters thru fertilizer, irrigation spray areas etc.

**IDEAS** | 92-11-16: Condo jam?

92-11-20: Sterilize pollinizer in microwave in large plastic bag

92-11-26: Plastic pipe concrete filler? for tree stakes? (aluminum triangle?)

92-11-26: Evergreen pecans for higher production? Cross with tropical Congo? or China? Mexico?

92-11-26: Banana bags as growtubes (weeched)

92-11-28: High-pressure all-oxygen treatment for lung cancer?

92-12-3: Custom-bred pollinator vectors (insects etc) for specific plant species?

92-12-3: Grow male female pistachios in separate orchards, routinely artificially pollinate (from moving gentry frames?)

93 Jan 22: An analogy to Archimedes-type uplift for growth-stress forces to move objects higher & lower in a growth field or with inflation of balloons, adding ballast?

**IDEAS** | 92 Oct 5: Pipeline motor/pump - mono pump or Archimedes screw with coil inside pipe driven by induction outside pipe. Works for plastic pipes etc on ocean floor etc.

92 Nov 7: Circular 'dike rule' to work out fertilizer requirements of local photo exposure guide

92 Nov 7: Vacuum cleaner on back, like backpack sprayer? With battery, for mobility?

92 Nov 8: Calcium or silicate as fuel/growth activator?

92 Nov 11: Elongate deposition points to change in Earth's atmosphere? What are conditions?

92 Nov 11: Very tall electric fence towers with charged wires or open gazes to attract precipitation?

**IDEAS** | 92-9-24: Could 'bottles' to contain liquids be made from inflated double-skin ultrathin plastics, cup if or replaced by foam or benzol?

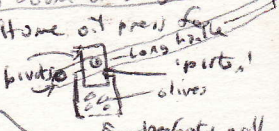

92-9-29: Home oil press for olives!

92-10-16: Detects roach etc. with automated blue computerized comparing today's CO2 scan with 5 cans stored 1 month before - previous?

92-10-23: Inflate vacuum balloon etc. with capsules of dry ice?

92-11-2: Temporary housing in remote parts with polyurethane foam sprayed on branch/leaf/rock framework?

92-11-2: Standard pre-fabricated road tooth ridges, made of plastic?

**IDEAS** | 92-8-9: Use metal-mesh calcium carbonate deposition (with 0.1 amp/m<sup>2</sup>) to form complex shapes?

Chemical to move 92-8-12 prosopis etc not develop thorns (2,2 hence be grazed out?)

92-8-28: Outer layer of skin & both atmosphere only appear lighter because meso-furrows of patches exceeded & heat on cells?

92-9-7: Run underground pipeline in liquid rather than water?

92-9-15: Dormex on graft scion buds for forced sprouting?

92-9-18: Are there differences between 'warm-blooded' mechanisms of birds & mammals? (would indicate evolution split before development)

92-9-18: Micro relief (pits, hummocks) is key to soil zone reclamation

92-9-24: Cure salinity with thick layer of mulch? Trials needed.
