

MINERAL EXPLORATION

134

1990 July 28

Would it be possible to determine presence of minerals at depth without conventional drilling, through x-ray reflection, NMR, fine-structure radar sheets, etc?

MAINS-POLLING SECURITY DEVICES

1990 Jul 3

The ultimate security for electrical goods - incorporate pollable circuit in electrical goods so that their serial number can be tracked through the mains supply.

PEDAL-OPERATED MICROWAVE

1990 April 4

Because of the serious fuel problem in many third-world countries, leading to destruction of trees for cooking food, an energy-efficient way of cooking such as microwaving could be an answer. It should be possible to generate enough power manually with a pedal-operated system, particularly one involving a vest or substitute flywheel power reserve.
