MUSICIANS SCORE DISPLAY

150

1987 July 6

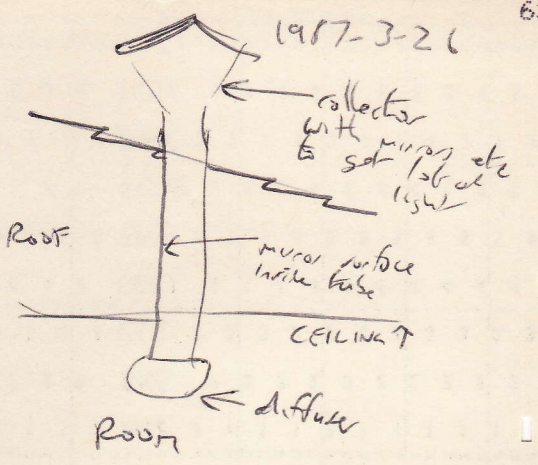
It would be possible to make a display which showed the score of a musical work, and which could be made to scroll or change pages of the score as the music was played. A cursor could show the current play position; sets of displays could be under the control of the conductor or leader, to monitor speed

LIGHT PIPES

630

1987-3-26

Instead of conventional sky lights, how about using cylindrical pipes of some diameter as stove chimneys, etc, with some fittings.



SELF-ADHESIVE 'DUST SHEETS'

615

1986 Dec 6

It should be possible to make a modification of the glue used for removable note squares & on dust & painting sheets and masking strips for paintwork etc.
