

HIGH POWERED AIRGUNS ETC

183

1984 October 9

The normal airport shows that compressed air can be used for a ~~new~~ device which otherwise would require explosives. Compressed-air devices ~~are~~^{are} capable of considerable development to match explosive devices - for cheaper and safer, and can be hand-operated in emergency or remotely.

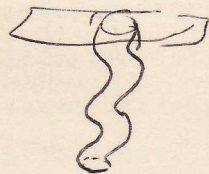

SYNTHETIC POP SINGERS

1984 October 9

With improvements in digital voice synthesis, how about synthesizing a pop singer, e.g. 'Benny Tyler style', 'Dolly Parton style', etc? Then have any synthesizer style you like sing your favourite songs. Perhaps the orchestral backing might be a little more difficult.

ANOTHER QUICK BINDING METHOD

1984 October 4

↑
Cut a 'worm hole' through the book with a hand sander of suitable hollow corker shape, insert a special plug of similar shape with gluey exterior. Other shapes possible besides worm/corker - could give better bond? Both left & right throats?
